PROJECTS

Portfolio Aspiring Developer with a passion for front-end development, I have developed a comprehensive personal portfolio project that showcases my skills and expertise. Designed with a focus on user experience and aesthetic appeal, my portfolio demonstrates proficiency in front-end development, design principles, and project management ([Try it now](#))

Tic-Tac-Toe. This project is a digital implementation of the classic Tic-Tac-Toe game, I have used HTML, CSS, and JavaScript. The game is designed to be played by two players who take turns marking the spaces in a 3x3 grid. The goal is to align three of the same symbols (either 'X' or 'O') in a row, column, or diagonal to win the game. If the grid is filled and no player has achieved a line of three, the game ends in a draw. ([Try it now](#))
